LAWN MAINTENANCE SCHEDULE

JANUARY

Lime your lawn with Dolomite Lime pellets.

FEBRUARY

Apply Dimension for crabgrass, sedge, and sandspurs.

MARCH

Use "PAT'S" Professional Weed & Feed for St. Augustine and centipede lawns. Apply Kill-A-Bug granules for insect control. Apply first feeding of our Nursery Special for trees, shrubs, and palms.

APRIL

Apply Dimension for crabgrass control.

MAY

Use "PAT'S" Professional 16-0-8 with iron for a lush green lawn. Spread Bug Blaster for mole crickets, chinch bugs, sod webworms, fleas, ticks, and ants.

JUNE

Apply a second feeding of Nursery Special to all of your trees, shrubs, and palms.

JULY

Use "PAT'S" Professional 16-0-8 with iron. Hi-Yield Grub Free Zone Systemic Insecticide for mole crickets, sod webworms, grubs, and chinch bugs.

AUGUST

Use Fertilome F-Stop Systemic granules for fungus control.

SEPTEMBER

Apply "PAT'S" Professional Weed & Feed for St. Augustine and centipede lawns. Use Deltamethrin granules for chinch bugs, mole crickets, and sod webworms.
Apply the last feeding of Nursery Special to trees, shrubs, and palms.

OCTOBER

Winterize your lawn with Potash to build a strong root system.

NOVEMBER

Apply one last application of Dimension crabgrass control and Kill-A-Bug granules for insects.

DECEMBER

To keep your lawn healthy during the winter months continue to water, but less often.
